

FAQ

GOHANGAMA -Glass lid rice cooker-

Q. Can cooked rice be left inside the rice cooker?

A. Please put cooked rice in a separate storage container as soon as possible after cooking because the pot will retain residual heat. Leaving rice or storing it in the rice cooker can cause rice to stick to the pot or cause the flavor of the rice to be negatively affected.

☆ We recommend our [Rice Container \(GO-2B\)](#)
for storing cooked rice
