

Tea

Filter-in Bottle

Wine bottle shaped cold brew tea bottle

Created from the idea to enjoy cold brewed tea like wine during meals, we designed the wine bottle shaped filter-in bottle. The filter is fixed onto the spout, so you can pour directly.

In addition to a 750ml bottle, a 300ml bottle is now available for individual use.

Just pour tea leaves and water together inside the bottle.

The filter mesh is fixed directly to the inside of the spout, so you can pour directly.

Filter-in Bottle - Aisne -

Champagne-shaped bottle for cold brewed tea

A new shape is released for the filter-in bottle to make cold brewed tea. The conventional filter-in bottle was shaped with the image of Bordeaux-type bottle, while the new model takes the shape of a champagne bottle. It is named Aisne, after the river Aisne running through the Champagne region. The net volume is 800ml.

Just pour tea leaves and water together inside the bottle.

The filter mesh is fixed directly to the inside of the spout, so you can pour directly.

Newly released square bottle stores tea in a horizontal position

This is a square bottle made of PCT resin. A filter inside the spout enables you to make cold brewed tea in the bottle. Due to its large 1,200 ml capacity, you can prepare plenty of cold brewed tea or flavored water for storage.

The filter mesh is fixed directly to the inside of the spout, so you can pour directly.

The tea can be stored in a horizontal position in a refrigerator shelf.

The bottle can be placed in the door pocket of a refrigerator.

Pursuing how to serve flavorful “fukamushi” green tea

In order to serve truly flavorful tea, we made the tea strainer as large as possible. By using a finely meshed tea strainer, you can now also serve “fukamushi” green tea with flavor.

The structure's design enables you to enjoy the very last drop.

**Pour tea simply by tilting the pitcher.
The lid structure does not let the aroma escape.**

This filter-in pitcher can be used as a pitcher for cold brewed tea. You can also make flavored infused water and sangria. The tea decanter is a pot for hot tea. Since it is shaped like a wine decanter, savor the tea as a complement to a meal. For both types, the filter is set in the spout, producing a lid that enables you to pour tea just by tilting the pitcher or decanter.

Just place tea leaves with hot or cold water in the pitcher or decanter. Since the filter is set inside the spout, you can pour tea just by tilting the vessel.

Jumping Leaf Pot

This teapot was developed with the thought of tea leaves jumping.

It is round, the shape that allows the most movement for the tea leaves to jump. Since the lid and filter come together, tea is poured with the lid on. This is a simple and functional teapot.

The keyword for flavor is jumping

The secret to serving flavorful tea is to make the tea leaves jump. The round form of the Jumping Tea Pot allows the tea leaves to move and jump. The tea strainer located at the spout, which gives maximum space for the tea leaves to move.
