

FAQ

Electric appliance

Q. Is it possible to use Japanese electric appliance (100V) in any place outside of Japan?

A. It is impossible.

The Japanese model (100V) is designed for Japan use only, please do not use in any place other than Japan with voltage converter. Doing so causes serious accidents and/or machine troubles.

※No warranty and no repair service will be applied using in other than Japan. The information is provided in the warranty section of instruction manual for each electric appliance.
